sure means of relief. Sent free of charge in sealed envelopes. Address, DR. J. SKILLIN HOUGHTON, Howard Association, Philadelphia, Pa. j-26 17

SEMI-WEEKLY ENQUIRER.

SATURDAY, MARCH 16, 1867.

CONGRESS.—It seems to be now pretty definitely determined that Congress will adjourn over till October. It is delaying for the express purpose of passing Wilson's Supplemental bill providing for the registration of all the legal voters in the five Military Departments of the South, under the immediate direction and supervision of the departmental Commanders, in case it is vetoed by the President. The design of the bill is to carry out and secure to all persons the rights and privileges embodied in the Reconstruction Act of March second.

The resolution which passed the Senate appropriating \$1,000,000 for the relief of the destitute and starving in the South meets with opposition from Butler and others in the Representative branch of Congress; they maintaining that it should rather go to support the widows and orphans of Union soldiers who perished in "rebel prison pens." From the best information obtainable, it is estimated that sixty thousand whites and thirty thousand negroes are in a state of starvation in the State of Georgia alone. This should not be permitted in a Christian land. The appropriation should, and we believe will, be made.

THE CONCERT given by the scholars of the Union Sunday School on Tuesday evening last more than met the expectations of its friends, and may be justly claimed as a success. The execution of the pieces—the ages of the scholars and their opportunities considered—was uniformly good. A few evinced more than an ordinary degree of musical talent. The song, "Music in the Air," was well executed; its effect was heightened by the Alto of Miss S. A. Phillips, and was received by the audience with a lively expression of approbation. Billy Grimes and "Come Home, Father," by little Mary Cooke, was sung with freedom and effect, indicating a power to express sentiments of tenderness so essential to success in ballad singing. "Come with thy sweet voice, again," by Miss Ella Halsey, rendered with spirit and appropriate musical intonation, drew forth manifestations of pleasure. "Natalie," by Misses Farr and Phillips was also good, in fact the entire performance evidenced a degree of training and instruction to the scholars, and an approach to excellence by the elder portion seldom witnessed in an entertainment of this character. We cannot refrain, however, giving notice of the superior and truly artistic manner in which little Julia Paccard, about eight years old, rendered her piece, surpassing anything of the kind we have witnessed, and we venture to say cannot be equaled in the State. The church was well filled and the audience appeared well pleased.

THE LATE DEFEAT.—The late defeat of the so-called workingmen's ticket in Sacramento is accounted for as follows by the San Francisco Call. The lesson will probably prove sufficient to keep others from placing confidence in those who are ever ready to create a dissatisfaction in party ranks that they may reap the fruits of the dissension. The Call says "the success experienced by the working-men or Anti-Coolies, who in Sacramento followed the lead of the Zach. Montgomerys and similar politicians, is not calculated to encourage them to make another experiment of the same sort. On the contrary, it should warn all those who feel an earnest respect and real regard for the true interests of the working classes, to refuse to have anything to do with scheming and unpopular politicians who would promise anything to get votes and power. The working-man's ticket in Sacramento turned out to be only a trick of worn-out Copperhead politicians, and was beaten by a two-to-one vote. The fact that a few working men allowed themselves in Sacramento to be fooled by a lot of scheming politicians will inure to the great injury of the real interests of the working men. We heartily trust that in this city the industrial classes will take warning from the Sacramento election, and not allow themselves to be made the tools of any politicians."

REGISTRY LAW.—The municipal election in Sacramento furnishes another proof of the just and equal operation of the Registry Law. Those who have a right to vote are well secured in its exercise. Those who have not are most effectually precluded. In the main, it puts a stop to bribery, double voting, perjury and corruption generally. It well nigh annihilates the hitherto extensive occupation of pot house politicians. When a candidate is elected he need have little fear of having his right to the office contested. The Registry of voters may be considered a settled principle in free government. It will soon be adopted in all the States, North and South. Let us have a "fixed," no longer a "floating" basis of power.

THE work on the new road from this place to Little York is rapidly progressing. The contractors inform us that they will complete their work sometime during the month of May. The work from Yon Bet to Little York is also being pushed ahead with great energy by Mr. Colby, and it is thought that portion will be complete in time to connect with the road on this side. The grade, it is now ascertained, will be much better than at first supposed, and will enable freight teams of the largest class to pass with comparative ease.

EXTRA SESSION.—Governor Blaisdel, of Nevada, has called an extra session of the Legislature of that State, the meeting of which was to have taken place on yesterday. The session is called for the purpose of providing a revenue for State purposes.

RELIGIOUS.—Rev. J. A. Benton, from Sacramento, will officiate at the Union Church morning and evening, at the usual hours.

Rev. P. Y. Cool will officiate at the M. E. Church morning and evening, at the usual hours.

FIRE IN POLSON.—In Polson on the night of March 6th, the house of Jacob Sweetser caught fire and was destroyed with its contents. It was insured for \$1,400.

MANHOOD SUFFRAGE.

The soul of English liberty is not dead.—From under the crushing government of a privileged landed class the English yeomanry are awaking as from a long dream to the eternal truth that they are men. That the British government, indeed all governments, are not what eternal justice, the rights of human nature, resting upon the immutable relations between man and man require they should be; but are the result of innumerable modifications worked out through the conflict of the centuries past, from conditions of tyranny and barbarism. The landless, partially educated, unfranchised millions, who have been the "hewers of wood and drawers of water" for the few land holders, with monstrous demonstrations are asking the latter the meaning of "English liberty." Does it primarily mean that a few shall own the land, make the laws, and the millions till it for them and be their body servants from century to century, sinking lower in ignorance and degradation into the death "unwept, unhonored and unning?" No, it cannot mean this! Blackstone declared "equity"—invariable justice—to be the "true and genuine meaning, the soul and spirit of all law." "Positive law being construed and rational law made by it." It was this primary right, this God-ordained justice, that the great Barons demanded and obtained from king John at Runnymede. Which has been reaffirmed and enlarged from time to time, and is now again demanded in greater fullness and perfection as the inalienable birth-right of English manhood. The right to participate in making the laws; the enfranchisement of investment with power, for the unanswerable reason that "all just governments derive their powers from the consent of the governed." A mere dissolution of the Derby or Tory ministry and the formation of a new one of equally conservative whigs, it is seen by John Bright, J. Stewart Mill and others of the great English reform movement, to lead to no positive good. Whigs and Tories stand on vested rights; and the millions in the reform movement also stand on the ancient and God-vested rights of English manhood. Rights, older and more sacred than any or all governments. Whether the present movement will succeed or succumb, is as yet problematical; at no distant day, however, it must triumph, all the moral powers of civilization, working by steam, by printing and telegraph, all gravitating on the side of the millions and against the privileged caste. The great wave of public opinion, surcharged with ideas of enfranchisement, of representation, of more ample liberty, of more diffused education, of diminished taxation to support overgrown baronial and royal houses in idleness and thriftless prodigality. It is even now rising higher and higher around the British government edifices, and the far sighted of both Whigs and Tories are bending forward, manifesting a disposition to meet its requirements, so far at least as may be necessary to stay its further advance, and save themselves and their institutions from being overwhelmed.

THE PRIMARY ELECTION LAW.—On Thursday of last week, the Union citizens of Oakland held a primary election under the new law, for the nomination of candidates. The News gives the following account of the made adopted: "At precisely five minutes to seven o'clock, Judge Watson administered to Mr. Ferris an oath, to the effect that he would see that the election about to be held would be conducted fairly and impartially. Mr. Ferris then named Captain Thomas Wall and Perry Johnson as Judges of the Election, and Mr. N. D. Arnot, Jr., and Mr. Frank Dodge as Clerks. The polls were then declared open. During the evening there were probably some thirty challenges. At half past eight o'clock voting had nearly ceased. Before closing the polls at half past nine o'clock, ample notice was given, and every facility afforded to those who might have been detained. The total number of votes cast were two hundred and twenty-six. But few votes were rejected, although there was considerable challenging. During the evening the utmost good order and decorum prevailed."

RED SEA CANAL.—The Canal uniting the waters of the Mediterranean with the Red Sea is approaching completion. A survey was made by the English many years since and pronounced impracticable for several causes; chiefly owing to its being liable to drift full of sand. In 1853 the French sent out Ferdinand de Lesseps, under whose survey, and in accordance with whose recommendations, the work was commenced. The distance in an air line from sea to sea is seventy-five miles. With the exception of two gentle elevations one thirty-five and the other thirty feet, the average height above the sea-level does not obtain more than from five to eight feet. The canal when finished, will be one hundred and twenty-five miles in length, twenty feet in depth, and three hundred and thirty feet wide on the surface. Whether this great work will be as easily kept in repair and as practicable for navigation as anticipated, remains to be seen. In any event, it will be the master-work of Napoleon; the most enduring monument of his foresight and energy.

GEOLOGICAL SURVEY.—Congress having made an appropriation for a geological and topographical survey of the region lying between the Sierra and Rocky mountains, it is said that the Secretaries of War and the Treasury, as also General Grant, are taking an active interest in the matter. The latter will send a sufficient Military escort to protect the parties of survey and exploration. The information for military purposes in obtaining a knowledge of localities, elevations, depressions, and natural trails and supplies of water in future conflicts with the Indians will prove valuable. Aside from the mineral and agricultural resources which will be to a considerable extent determined, it will also necessarily furnish most valuable information data for further surveys of the great thoroughfares running East and West across the Continent, or North and South. It will more especially inure to the benefit of the Pacific States.

LIGHT HOUSE INSPECTOR.—J. C. Carter, U. S. N., has been appointed Light House Inspector of the 18th Light House District, comprising the coasts of California, Oregon and Washington Territory. The steamer Shurbick has been transferred to the Light House Department.

TREASURY.—The Sacramento, which sailed Saturday last for Panama, carried away treasure amounting to \$117,332.42.

A NUT FOR THE CRITIC.

MR. EDITOR.—Sometimes, that is, generally, if I ask a hard question, a poser, what do you suppose I get for an answer? Ask the Editor. Now, I know that Editors are asked a great many questions and things that they know nothing about; hadn't ought to, either. How in the deuce should they know everything, good bad, and indifferent. Now, M. E. B. and forty other B's wish to know if there is no other material round about or in this locality for criticism but the exhibition. We are inclined to think that Staccato Tanto Vibrante—that creek follow—has exhibition on the brain, or, it may be, that while his brain tarried in the creek—must have been there, somewhere—it became mud-died. 'Twould take more than one Webster-on-a-bridge, or in a creek, to give a just definition of that creek-article. So we B's think.

Please, Mr. Critic, if you must continue your criticism or creek-ism on the exhibition, in mercy do not give us such a "wandering" exhibition of your critical talents, but let your criticism be fixed to the subject, or if you are wedded to your style, be kind enough to append a note at the bottom (in imitation of the amateur painter, when he attempted the picture of a horse), stating, in plain terms what you mean. By complying you will oblige M. E. B. and 40 OTHER B'S.

TO-DAY'S ADVERTISEMENTS.

UNCLE SAM SALOON,

MAIN STREET,

LETTER FROM COLFAX.

COLFAX, March 15th, 1887.

MR. EDITOR:—One day this week our usually quiet town was roused by strange sounds emanating from that ordinarily quiet portion known as the "Coal-yard." On proceeding hence, it was ascertained to have originated from two well known citizens having come into violent collision. I did not learn the merits of the controversy, but saw for myself that the lesser man of the two, was badly whipped. As though the disease was infectious it soon spread to a neighboring hay-yard, where a "In Heenan" set to was had between the proprietor and a Grass Valley teamster. In this engagement, on the third round, the teamster was knocked out of time and the hay-yard keeper declared the winner. The best of feelings prevailed throughout, and the opinion of the Judges unreservedly concurred. No arrests were made in these cases, but the same day an intoxicated blacksmith was judged for appropriating a portion of the sidewalk for the purposes of a sleeping apartment. He was duly brought before the court and dealt with as in such cases made and provided.

COLFAX BATTLE.

In passing through our town you have doubtless been attracted by a singular looking building situated on the knoll a little to the south east of the depot; you will recollect that the style of the architecture is that of the ancient Druids, with something in it to remind you of a later period; and perhaps you, like myself, have often wondered for what purpose the same was built. It is my pleasing duty to inform you, for it is not a strange story, nor is the telling of it calculated to harrow up the soul, or afflict the weak. The old building on that old hill is the Colfax Battle; and to its loathsome cells many an American freeman—happy from the soothing influence of the pure Cal. Juice—has been dragged from the scenes of his pleasures and deprived of the greatest boon known to the law. At present the upper portion is dedicated and used as the office of the Chief of Police. From the office telegraph wires extend connecting with all portions of the State, and woe to the unlucky evil-doer who shapes his course for these parts. From the upper porch a panoramic view of Colfax is had, and the eagle gaze of the Chief is often directed to the disorderly parts, when the guilty are made to quail and tremble in their boots. The improvements of time may appropriate this site to other uses, but I doubt not the souls of those injured in its vaults, will visit the old place in coming years and terrify the living and doubtless innocent occupants.

MINING.

You know that I have heretofore spoken of rich-placer mining. What I said, together with sales of dust made this week by parties from Kilmer's neighborhood has created an intense furor. A large number of our most steady business men have been carried off by the excitement and have been busy locating claims with the less industrious portion of the people. The hills around Henks' Ranch have been crowded with those eager to secure a location, and at this time every foot of ground for miles is staked off. I have received a good claim but I do not calculate upon making anything out of it for the present. The water is almost gone and I will have to wait patiently for the next season or until some enterprising parties bring us water. The claim of Dillon & Co. to the west of Colfax, is still paying steadily \$8 and \$10 to the man, and Walker & Co., just above, are doing equally as well. They have promise of water for some time yet; and in this respect are better off than those having locations near Kilmer's. The quartz fever is yet unabated. Mike Curley, the original locator of the Rising Sun, has just succeeded in discovering a new lode. It is much larger than any other yet found, and is to the southwest of the principal lodes now located. He is at present running a tunnel to tap the vein at a respectable depth, which will be able to test its merits. Mike is one of that necessary class, industrious, persevering, always on the alert, constantly locating and bringing to attention valuable claims, but like his prototypes, disposing of them too readily and in the end reaping none of the benefits of his enterprise. In this instance I hope that he will be more cautious and reserve a respectable part for a rainy day.

MCKEY'S TILT AGAINST THE RAILROAD.
Jim McKue had another set to with the Railroad Company yesterday on the green-back question, but in this fight was routed, horse, foot, and dragon. Rules were established by the Company compelling every passenger to procure his ticket before taking his seat in the cars, and they raised three and a half cents on the price of their tickets so as to cover the costs of Internal Revenue stamps. Jim was not provided with Legal Tender of a sufficiently small denomination to make change and was compelled to fall back on gold. In this action he has been badly worsted, but it is thought that he will soon recruit and enter the field again. Yours,

OCCASIONAL.

AN APPRECIATIVE ADVERTISER.—A celebrated wholesale merchant in London, England, has presented the proprietors of the *Enquirer* with a printing press which cost \$25,000, as a token of appreciation. In doing so, he accompanied the gift by a letter, which said: "In your paper, by judicious advertising, I have amassed the fortune which enables me to offer the testimony of regard and good will."

THE ST. LOUIS REPUBLICAN says the practice of shop-lifting has become so common in that city that every lady who goes shopping is suspected. It warns the ladies to be careful of their motions, and notes the case of one who was arrested and searched recently on the mere suspicion of a clerk. Her husband was so indignant that the clerk, who went to his home to reiterate his apologies, was obliged to defend himself with a revolver.

COTTON CAPTURED.—The report of the Secretary of the Treasury shows the gross amount of the value of cotton captured and condemned to reach the large sum of \$29,000,000. By adding sales of other property, gives a total of \$34,333,000. The disbursements were \$9,310,000, leaving a balance of \$25,000,000 profit to the Government.

GENERALLY.—An exchange says: "Lovers, like smiles, generally get along quietly enough until they are engaged."

It cures musquitos, bites and sting of insects.

It contains no material injurious to the skin.

•LYON'S KATHALION.

It is a most delightful Hair Dressing. It eradicates scurf and dandruff. It keeps the head cool and clean.

It makes the hair rich, soft and glossy.

It prevents the hair turning gray and falling off.

It restores the hair upon prematurely bald heads.

This is just what Lyon's Kathalion will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, and there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

•LYON'S EXTRACT GINGER.

LYON'S EXTRACT OF PURE JAMAICA GINGER.—For Indigestion, Nausea, Heartburn, &c., &c. A warming stimulant is required. Its careful preparation and entire purity make it a cheap and reliable article for culinary purposes. Sold everywhere at fifty cents a bottle. Ask for "Lyon's" Pure Extract. Take no other. See that the private U. S. stamp of Demas Barnes & Co., is over the cork of each package. None other is genuine.

•MUSTANG LINIMENT.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment. For cuts, sprains, burns, swellings and caked breasts, the Mexican Mustang Liniment is a certain cure.

For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment.

For spavined horses, the poll evil, ringbone and swellings, the Mexican Mustang Liniment never fails.

For wind galls, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold.

Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

In lifting the kettle from the fire, it tipped and scalded me terribly. * * * The Mustang Liniment extracted the pain and caused the sore to heal rapidly, and left very little scar.

CHAS. FOSTER, 420 Broad st., Phil.

Mr. S. Litch of Hyde Park, Vt., writes: "My horse was considered worthless, (spavin) but since the use of the Mustang Liniment I have sold him for \$150. Your Liniment is doing wonders up here."

All genuine is wrapped in steel plate engravings, signed G. W. Westbrook, Chemist and also has the private U. S. stamp of Demas Barnes & Co. over the top. Look closely. Sold by all Druggists at 25 cents, and \$1.

•LYON'S FLEA POWDER.

DEATH TO FLEAS.—It is well known that Lyon's genuine Magnolia Powder will perfectly destroy everything in the shape of Fleas, ticks, bed-bugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals. The genuine has the signature of E. Lyon, and the private stamp of Demas Barnes & Co. Anything else of this kind is an imitation or counterfeit. Any Druggist will procure the genuine if you insist you will have no other.

REDINGTON & CO.'S

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

MEDICAL.

FRENCH MEDICAL OFFICE.

Dr. JULIEN PENNAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptist Society of San Francisco.

Dr. PENNAULT has pleasure in offering patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, upstairs entrance either Montgomery or Sacramento streets.

Dr. PENNAULT's studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently reduce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward.

Patients, laboring under the following symptoms: Complaint of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are weakened, Loss of Memory comes, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Night and Hearing are weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, fainting, coughs and slow fever; while some have external rheumatic pain, and numbness of the body.

Some of the most common symptoms are pimples in the face and itching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PENNAULT, either in person or by letter, as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Stricture, Bubos, Ulcers, Catarrhus Vaginitis, etc., will be treated successfully. All Syphilis and Mercurial Taints entirely removed from the system.

Dr. PENNAULT's diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everything, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, will write or communicate, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.
Dr. PENNAULT is the only agent in California for Dr. Bior's Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curio-ty or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PENNAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, as above. P. O. San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.

All communications confidential. je 23-1y

MEDICAL.

DR. CHAS. H. TOZER'S
PRIVATE MEDICAL INSTITUTE,
N. E. Corner of Kearny and Jackson Streets,
SAN FRANCISCO.

The Great Eradicator of Special Complaints, formerly of Locks Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.

DR. TOZER'S
Experience is of forty years' standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering. Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the Head, Headache and an aversion to general society, especially that of females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on Dr. TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

Stricture of the Urethra
Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Veneral Diseases.
In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system. Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula.

Syphilitic Disease.
As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Syphilis, Chills and an adjuvant of disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different medical treatment.

The Old Formula.
Of Ricord, Acton and Boissac, are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form. These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating as it does, from 1849. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia,
And diseases arising from the use of Mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness.
Should you be afflicted with any of the following symptoms, such as weakness of the Back and Limbs, Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Forgetting, Self-distrust, and an aversion to society, consult Dr. TOZER at once, and he will restore you to perfect health.

To Females.
When you are afflicted with Weakness of the Back and Limbs, Head, Loss of Muscular Power, Palpitation of the Heart, Irritability, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult Dr. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor. My FEMALE MONTHLY PILLS were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office.

Price, FIVE DOLLARS—with full directions on each Box. Sent by Mail or Express.

To Correspondents.
Patients of either sex, residing in any part of the country, however distant, who may desire the opinion and advice of Dr. TOZER, can, by submitting a written statement of their case to the Doctor, receive all the attention and medicines necessary to effect a cure without the necessity of a personal interview. All letters strictly confidential, opened and replied to by the Doctor.

Consultation at the office or by letter, FREE. Cures in all cases guaranteed. Office hours from 9 A. M. to 9 P. M.

A Grateful Acknowledgment to Skill-ful Gentlemen.
San Francisco, June 1, 1868.

Dr. Chas. H. Tozer, Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called on you for assistance about a year ago. The roof of my mouth had completely rotted out, and my pain dropped and there remained, stopping up the passage so that I could hardly eat. You remember you cut it out at once, and I was cured. I was enabled to swallow my food, and in a short time began to improve. I took your medicine, and followed your directions for several months. You finally succeeded in stopping the discharge, and saving my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, in order that I could have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health, and even my life, as I was very near bleeding to death several times from the nose.

I am now in Sacramento City, enjoying good health, and I shall recommend it to my friends to call on you should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for the success of both of you, I remain, yours, etc.

To Dr. Chas. H. Tozer, San Francisco, Cal.

MEDICAL.

PRIVATE MEDICAL AID.
QUICK CURES AND MODERATE CHARGES.

DR. W. K. DOHERTY'S
Private Medical and Surgical Institute
Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office, Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Scrofula and all Sexual Disorders.

TO THE AFFLICTED.
Dr. W. K. Doherty returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms, advanced stages, Seminal Weakness, and all the horrible consequences of self-abuse, Gonorrhea, Gleet, Stricture, Nocturnal and Diurnal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he has, by his long experience and successful practice, continued to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply to the afflicted a most successful and safe remedy, curing diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has reputation as a successful and reliable physician, and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit recovery.

Ladies would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen that the statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity and they are given as follows:
I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing that some Doctor who had such positive assurances of success were necessary, I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, my Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunate who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhea, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
L. H. —

Seminal Weakness—A Sworn-to Certificate of a most Remarkable Cure of Spermatorrhoea.
A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induce me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhoea," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little relief, and in consequence, my health was so much impaired, that I was unable to perform my duties of life. From 1855 to the summer of 1863, I employed the best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had almost concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 6th of December last I placed myself under his care. In one week found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself,
JAMES JOHNSON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.

To Females.
When a female is in trouble or afflicted with diseases as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should not write to the celebrated female Doctor, W. K. Doherty, at the Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.
Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of their case, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communications will be expedited, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purpose of the letter or paper so transmitted. Consultation at the office free. Permanent cure guaranteed or no pay. Address,
W. K. DOHERTY, M. D.,

THIS CELEBRATED INSTITUTE
has enjoyed on this coast an undiminished success for fourteen years, and has become one of the renowned Hospitals of the West. What the celebrated Lock Hospital is to London, and the most renowned establishment of its kind in Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES AND IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the blood from the cheeks, and into the hair, giving the strength from the frame, they give to the world pale and diseased offspring, and poison through successive generations the race of man. The marks can be seen in Scrofula, Consumption, the triple, the double, the Paralytic, the Luesic, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The blood, which is the life, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its danger. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a violence that will nullify the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician who has devoted his life to the study of the venereal diseases, and who has the means to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY AND PERMANENT.

Cures are Always Guaranteed.
In syphilis and its adjuncts: Gonorrhea and all accompanying diseases, and all diseases of the Bladder, Kidneys, and prostate: Seminal Weakness, Diseases of the Heart and Lungs; Dyspepsia; Indigestion; Impotency; Impudent consumption, and all diseases of the urinary organs, in either sex, cure always warranted. Seminal Weakness or Spermatorrhoea
The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, unaccountable loss of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing debility, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases, Seminal Weakness—wasting away his powers, destroying his health, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to him no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of his happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery, and until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which thousands of sick-rooms with paralyzed limbs, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would afford his best hope of cure, to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.
When a female is in trouble or afflicted with disease and requires medical aid or surgical assistance, the enquiry should be: Where is there a physician who is fully competent to administer relief, and whose responsible standing in society recommends him to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.
